

Manpower Survey Of B.C. Industry

VANCOUVER (CP)—A manpower survey of all B.C. high priority industries to learn how long it will take to replace men who are being called up for military service has been started, William McKinstry, regional superintendent, National Selective Service, announced today.

One of the objects of the survey, he said, will be to discover how many women can fill jobs vacated by men going into the armed services.

Local Airman Missing

The 702nd R.C.A.F. casualty list issued today reports Sgt. Observer Kenneth D. Wellwood of Victoria, missing on active air operations. He is the son of Mr. and Mrs. W. R. Wellwood, 1413 McNair Street. A native of this city, Wellwood was a school teacher in the Cariboo and at Errington before joining the R.C.A.F.

New Shoulder Patch

WHITEHORSE, Y.T. (CP)—American soldiers constructing and operating the 1,630-mile Alaska Military Highway will wear a shoulder patch embodying the red, white and blue national colors of Canada and the United States. The insignia features a broad white swath which symbolizes the highway, and at the top is the blue North Star, from the Alaskan territorial flag.

Portuguese May Protest

LONDON (AP)—Dispatches from Madrid today said diplomatic quarters there looked for Portugal to declare war on Japan as a protest against Japanese encroachment upon Portuguese territory.

Vatican Attempt Fails, Says Berlin Radio

LONDON (AP)—A Berlin broadcast by a propaganda organization, said today: "Seventeen armed British soldiers attempted to enter the Vatican a few days ago. Swiss guards disarmed the intruders. The story behind this attempt is not yet completely available." There was no further explanation of the reported incident.

Jolson Little Better

NEW YORK (AP)—Al Jolson, stage and screen comedian, suffering from pneumonia since Thursday, was "a little better," his physician said today. Jolson returned here recently from entertaining troops in north Africa and Sicily.

Taman Peninsula Cleared of Nazis

LONDON (CP)—The Taman peninsula across the Kerch straits from the Crimea has been swept completely clear of Germans, ending Hitler's costly and disastrous efforts to win the oil riches of the Caucasus, Premier Marshal Joseph Stalin announced tonight in a special order of the day.

Peace River Outlet

EDMONTON (CP)—Construction of a Peace River district railway outlet to the Pacific coast "may be something for consideration in the postwar period," R. C. Vaughan, C.N.R. president, said today.

Bombers Hit Hanoi

NEW YORK (AP)—About 20 U.S. bombers attacked Hanoi, Indo-China capital, today, and the population suffered losses, The German radio said.

Soong In India

NEW DELHI (AP)—Chinese Foreign Minister T. V. Soong arrived here today by air to join the military conversations being held by Admiral Lord Louis Mountbatten, Allied commander-in-chief in southeastern Asia. Soong's appearance coincided with the greatest gathering of British and U.S. generals, admirals and air chiefs ever seen in India. Strictest secrecy clothed the conference.

Strike No Nearer

VANCOUVER (CP)—While negotiations for an end of the strike of 500 Queen Charlotte Island loggers appeared no closer to settlement today, indications were that no mass movement of men from the camps is contemplated for the present.

Daylight Raids Hit 300 Miles From Russ Front

By ROBERT STURDEVANT
LONDON (CP)—Following up R.A.F.R.C.A.F. night smashes at Hanover and other German cities, strong formations of heavy American bombers flew deep into Europe today to bomb important targets in Pomerania, in eastern Germany, Poland, and East Prussia, it was announced.

This deepest daylight penetration into Hitler's fortress from British bases followed up the R.A.F.R.C.A.F. raid in great strength Friday night on the German rubber manufacturing centre of Hanover and a lesser R.A.F. raid on the port of Bremen, which American bombers had left in flames Friday.

(The round trip from the vicinity of London to East Prussia would involve a flight of at least 1,600 miles.)

Referring to Friday's Bremen raid, the Berlin radio claimed that 48 planes out of the "powerful North American air formations" had been shot down. The Americans announced the loss of 30 bombers Friday.

It admitted "considerable damage" in Friday night's Hanover raid.

(Berlin dispatches to the Swedish press today said the centre of Bremen was laid waste by Friday's daylight bombing by American four-engine planes.)

(A German spokesman was quoted as saying he was unable to give details, but "there was great devastation in the centre of the city.")

(The Berlin spokesman acknowledged Allied superiority in aerial warfare and said there was no indication that the Germans would be able to halt the increasing raids, but told Swedish correspondents the war would not be won in the air.)

18,000 Homeless, 1,700 Persons Dead

The Social Demokraten carried an undated report that the Zeiss works at Stuttgart were again damaged in the R.A.F. raid Oct. 7, and that residents of that industrial centre fled in panic. The report said 1,700 persons were killed and 18,000 left homeless.

The R.A.F.'s night assaults climaxed a day of intense aerial activity and preliminary reports showed the assault was concentrated.

Thirty-one bombers were lost, seven of them Canadian.

Today's flights foreshadowed the day when Allied blows from Britain may be linked up with the vast ground front in Russia and provided eloquent testimony to the feebleness of the German effort to forestall what Berlin calls the "air terror" that is striking down German cities one by one.

The eastern part of East Prussia is only 300 miles from Nevel, the most westerly point of the Russian offensive.

Friday night's R.A.F. raid on Bremen was the second time in four days that British and American heavy armadas have thrown a double day-night punch at German industrial centres near their British bases.

The R.A.F. force attacking the North German port of Bremen was guided to its target by fires set from heavy explosives dumped during daylight Friday by American bombers which, with fighter escort shot down 142 enemy fighters in a great battle in which 30 heavy bombers were lost.

Plan For Hanover Follows Hamburg

Friday night's attack on Bremen was the 106th of the war on that submarine and aircraft centre, and the twin assault boosted major R.A.F. aerial attacks on Germany to six since the first of the month—a pace considerably ahead of that for the same period during September.

Hanover, 160 miles west of Berlin, is Germany's 10th largest city with a population of 500,000. The consistency of the heavy night blasts seemed designed to erase that city from the map in much the same way that Hamburg was knocked from the war.

Other R.A.F. planes rounded out the night's scattered assaults by laying mines in Nazi shipping lanes.

Bolzano New Home Of Italy's Puppets

By FRANK BRUTTO
Associated Press Staff Writer
BERNE—Removal of the Fascist Republican government from Rome to Bolzano in the Italian Alps has called the attention of the Romans to the fact that the Eternal City may soon become a battleground.

Dispatches reaching Switzerland from Italy said that although few soldiers are visible in Rome tanks and motorized units roll over the stones of Piazza del Popolo and the Corso, and that "at intervals cannon fire can be heard from the south, but after 8 p.m. Rome is blacked out."

There was considerable speculation as to the whereabouts of younger Italian men from 18 to 35 who disappeared from the streets of Rome. It was not known whether they were merely in custody or had been whisked off to forced labor in Germany.

The move to Bolzano, only 36 miles from the German frontier, was explained in the German newspaper Berliner Boersen Zeitung as designed to provide closer contact with operational bases and Germany.

Twin Spearheads of Soviet Army Aimed to Envelop Kiev Fortress

LONDON (CP)—Blasting huge wedges into the 30-mile deep German defence zone west of the Dnieper River north and south of Kiev, strong spearheads of the Red Army have hurled back fierce Nazi counter-attacks and entrenched themselves for what appeared to be a huge pincer movement aimed at enveloping the great fortress city.

Moscow announced today the major breach in the German lines was carried out south of Pereyaslav, 50 miles below the Ukrainian capital. It was expected expansion of this wedge may collapse the whole front. Carried out under the cover of darkness, the attack caught the enemy by complete surprise.

Of almost equal importance was the storming of the German west bank defences north of Kiev near the confluence of the Pripiet and Dnieper rivers.

Red Advance Guards Fanning Out South

Here Soviet advance guards were fanning out to the south in a drive evidently aimed at hitting Kiev from the rear and meeting other Red Army columns sweeping up from the south.

A third important Red Army foothold on the west bank, between Kremenchug and Dnepropetrovsk, was also firmly established, the Moscow communique indicated, and Russians were repulsing counter-smashes in which the Germans hurled tanks, planes and men to no avail.

More than 2,800 Germans fell in the fierce bridgehead battles. Soviet airmen, screening the crossings, shot down 32 German planes.

Richest Harvest Taken From Sea

OTTAWA (CP)—A rich harvest of the sea is being hauled to port by Canadian fishermen who may be able to say in distant time that 1943 was the best year of them all in point of revenue.

Fisheries Department reports—as yet unrevised—showed today that for the eight months of 1943 the landed value of the sea catch to fishermen has been \$28,572,263, against \$20,986,253 for the same period last year.

Officials said these figures sprang into prominence when compared with those for the full year of 1938, when the landed catch was worth only \$17,767,670 to the Canadian fishermen.

From both coasts came reports of ready markets for fish, with an increased catch for 1943 thus far when compared with 1942. The landed catch for the eight months of this year was 7,563,256 hundredweight, against 7,407,680 for the same period in 1942.

The increased yield of the sea is being garnered by fewer men. Sea fishermen in 1942 numbered 63,130, perhaps 6,000 fewer than when the war started. Since 1942 there have been further declines, but no figures for this year were available.

De Marigny, Maniac, Slain Man Said

NASSAU, Bahamas (AP)—A preliminary hearing witness swore today that he heard Sir Harry Oakes, wealthy baronet who was beaten and burned to death here three months ago, call Alfred de Marigny, his son-in-law who is accused of the crime, "a sex maniac."

The witness was Thomas Lavelle, who lives across the street from De Marigny's, the husband of Sir Harry's eldest daughter Nancy. A preliminary hearing for De Marigny was reopened to permit Lavelle to testify because he expects to be in the United States when the defendant is tried in the Supreme Court Oct. 18 on a murder charge.

Lavelle said he overheard parts of a conversation which took place between Sir Harry and De Marigny last March 27 in front of the latter's Victoria Avenue cottage.

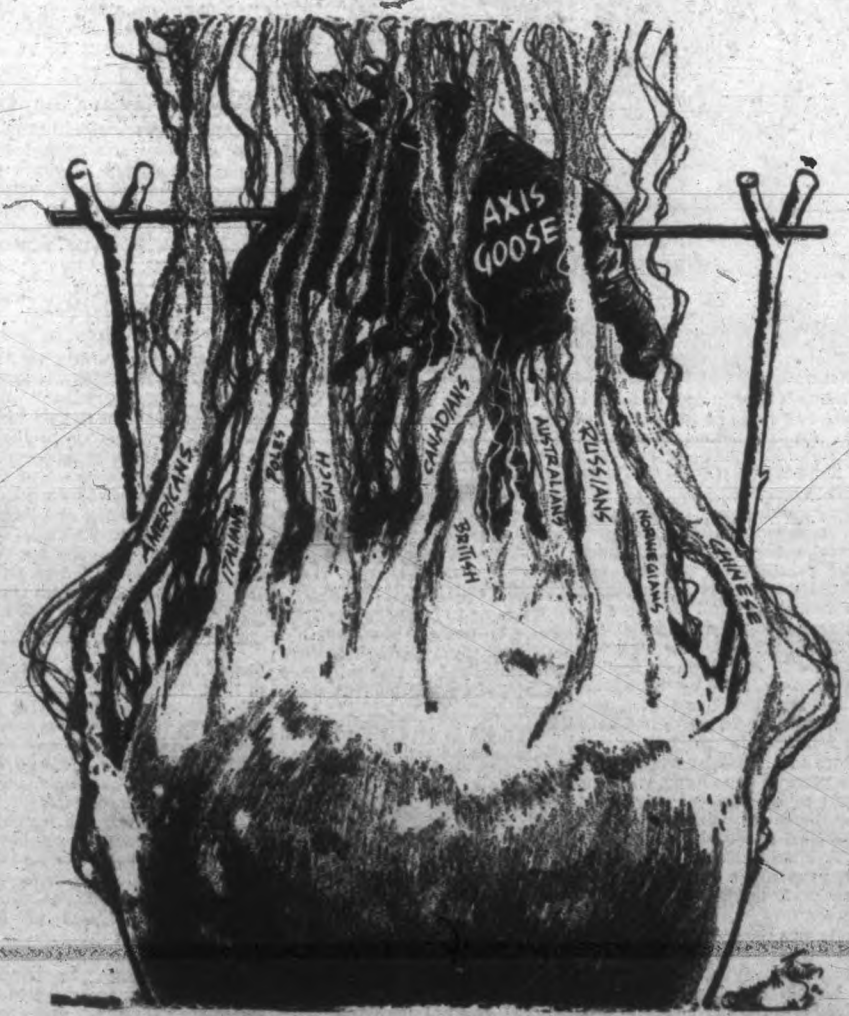

From his house, Lavelle said, he heard Sir Harry tell De Marigny:

"You'd better not write any more letters to my wife."

Again, he said, the 68-year-old baronet raised his voice and declared:

"You're a sex maniac."

Nazis Retreat Across Volturno; Railway Centre Caserta Captured

3 Roads to Rome for Allies.

LONDON (AP)—The Cairo radio said today Allied forces have crossed the Volturno River north of Naples on a "broad front."

The broadcast said the Germans were retreating to new positions along the Garigliano River some 15 to 20 miles north of the Volturno.

ALLIED HEADQUARTERS, ALGERIERS (AP)—Allied patrols have fought their way across the lower Volturno River in Italy, where they are probing the strong enemy defences on the north bank, and the Germans have flung another division—the 3rd Armored Grenadiers—into battle to hold that river line, Allied headquarters announced today.

Allied forces have reached the Volturno along its length from the mountains to the sea, Associated Press correspondent Reiman Morin, with the 5th Army, reported.

The strategic railway and highway centre of Caserta, 16 miles north of Naples on the southern side of the Volturno, was captured as the Anglo-American 5th Army mopped up the last enemy resistance south of the Volturno and Calore rivers, official reports disclosed.

British and American patrols forcing the Volturno encountered brisk small arms and light artillery fire. A headquarters officer emphasized that front reports indicated no major body of the 5th Army had yet penetrated across the stream, and declared "there is every indication the Germans intend to try their best to hold there."

Fighting Slackens On Adriatic Front

On the Adriatic front, the fighting died down somewhat after three days of heavy battling in which Gen. Sir Bernard Montgomery's British 8th Army, which includes the Canadian 1st Division, knocked out half of 30 attacking Nazi tanks, including the huge Mark VI Tigers, thrown in the battle in an attempt to break the British hold on Termoli.

In the air, the Northwest African Force smashed out again on Friday and Thursday at airfields in Greece, Crete and the Dodecanese. It was a double-play attack supported by R.A.F. bombers of the Middle East hitting at Heraklion in Crete and Calato in Rhodes.

Nazis Pay Heavily For Attack On 8th

The Germans paid a high cost with the veteran 16th Armored Division and the first Parachute Troop Division charging strongly, but it gained them nothing.

Other units of Gen. Montgomery's British and Canadian troops advanced from two to three miles at some points farther inland, maintaining pressure, while in the mountainous central sector there was little change in the lines.

(NBC correspondent Merrill Mueller reported from a front-line position with the 5th Army that "although only our patrols have so far crossed the river (Volturno), the signal for the main force to fight its way to the other bank is expected momentarily.")

Before retreating across the Volturno, the enemy laid mines and installed booby traps in "every possible place." These have taken a heavy toll of civilians.

Fierce Battle Rages For Trieste, Fiume

LONDON (AP)—Yugoslav troops have launched fierce battles in a new drive to wrest the Italian ports of Trieste and Fiume from the Germans, a Yugoslav communique said today, and have delivered smashing blows at German forces along interior railways.

"Bitter fighting is going on in the southern suburbs of Trieste and south of the port," said the war bulletin broadcast by the free Yugoslav radio.

Italian battle fleet units, turning against their former Allies to support the Yugoslav guerrillas, have bombarded Nazi-occupied towns on the Dalmatian coast, the Bari, Italy, radio said.

The Yugoslav communique said there was spirited fighting also in the Susak sector, with the Germans throwing a complete division against Yugoslav liberation forces holding heights dominating the port of Fiume.

The German garrison at Ogulin, 22 miles inland from the coast, was declared to be completely surrounded, and a large-scale offensive along a 50-mile stretch of railway between Ogulin, Karlovac and Zagreb was said to be growing in strength.

Says Uniformed People Want Free Enterprise

NEW WESTMINSTER (CP)—Attorney-General Maitland said in an address to Rotary Club here that men and women of the armed forces will not stand for state control when they return to civilian life.

"Men and women who return home after the war will demand free and uncontrolled enterprise," he said. "State control, advocated by a certain political party, should be dropped as soon as possible after the war ends."

U.B.C. Undergraduates To Take Week-end Jobs

VANCOUVER (CP)—Week-end jobs for university students, ranging from telegraph messengers to bowling alley pin setters, are being offered by the university employment bureau. Seventy students have become part-time employees in war industries. The bureau now is working on the scheme to provide Saturday and Sunday jobs for undergraduates.

India's Famine Like Black Death One of Wavell's Heaviest Tasks

By DOUG HOW

LONDON (CP)—On the eve of Viscount Wavell's departure to take up the role of Viceroy, India's famine broke into the British press and awoke a renewed appreciation of the heavy tasks which lie before him.

Parliament drew from Hon. L. S. Amery, Secretary of State for India, the statement that parts of Bombay, Madras, Cochin, Travancore and, above all, Bengal and its great city of Calcutta had been under "the menace of famine" for months. Elsewhere, he said, the position generally was "not so serious" but heavy concentrations of population "are all a constant source of anxiety."

"The weekly Statesman and Nation carried the statement that 'the descriptions of life in Calcutta that now have begun to reach us, after long months of censorship and silence, read like extracts from some medieval chronicle of the black death.' It said 150 corpses were found in the streets daily.

FAMILIES DISINTEGRATED
Reuters news agency reported from Calcutta a survey of 500 destitute families showed 25 per cent of them had "disintegrated"—husbands had driven away wives and wives have deserted ailing husbands. Children have forsaken aged and disabled parents and parents have also left home in despair."

Mr. Amery told Parliament the "death rate in Calcutta for the past seven months has been 30 per cent above normal."

The British government is "giving such assistance as they can by facilitating import of food-stuffs."

The central government had used their powers of intervention "to a very considerable extent," he told a questioner. The secretary told another questioner "the primary and statutory responsibility... has been that of the provincial governments where those governments have enjoyed self-governing administration."

LACK OF FORESIGHT
(The Calcutta newspaper, the Statesman, charged "the present sickening catastrophe is man-made." It said the "most outstanding factor has been the lack of foresight and planning capacity by India's own civil governments, central and provincial.")

Official sources, amplifying Mr. Amery's statement, explained that of the 51,000,000 tons of food India produces annually nearly half is rice. The surplus of 14,000,000 tons of rice normally available from the peasant farms is supplied to the towns and cities.

But, last year "there was a tendency all over India" to retain the surplus. The reasons were a realization of the loss of the Burma supply, speculative motives, fear of invasion, and lack of chances to spend because of a shortage of goods to buy.

Further, the central government ultimately had to invade a field of administration which was essentially that of the 11 provincial governments and scores of states. A plan to have provinces with an excess of food distribute them to those with a deficit was accepted early in the year by all the provinces but failed under the test.

Hospital Ship Sunk In Salerno Landing

ALLIED HEADQUARTERS, ALGIERS (AP)—Official sources permitted the disclosure today that the hospital ship Newfoundland was sunk in the Gulf of Salerno off Italy Sept. 13, after it had been attacked by German bombers, despite the bright identification lights it bore.

The Newfoundland, formerly a passenger-cargo ship on the Boston-St. John's-Liverpool run, was struck by a heavy bomb at 5 a.m. There were several British nurses and doctors aboard, some of whom were killed. All 103 American nurses escaped. No patients were aboard.

Work crews finally extinguished the fire on the vessel, but salvage operations proved to be impossible in the gulf, and the hulk was sunk by gunfire from an Allied destroyer.

Trebitch Lincoln Dead

Trebitch Lincoln and his followers created a stir when they arrived here 10 years ago in the Ss. Empress of Russia, aboard which the picture was taken.

NEW YORK (CP)—The Japanese Domei Agency says that Trebitch Lincoln, whose career as an adventurer in roles ranging from professional spy and smuggler to Methodist preacher and Buddhist monk rivaled anything in fiction, is dead in Shanghai after an intestinal operation.

The Tokyo wireless dispatch, beamed to East Asia in English and recorded here by the federal communications commission, said Trebitch Lincoln, who had lived in Shanghai for the last several years as a Buddhist monk under the name of Chao Kung, was "the most mysterious and colorful of the horde of adventurers that Shanghai attracted."

Trebitch Lincoln's death had been reported a number of times previously in his long and varied career.

He was born in Hungary about 1870, as Ignatius Timothy Trebitch.

Lincoln had been an English Member of Parliament, a self-confessed spy, an Anglican preacher, a German press censor

Posties Here Ask \$300 Increase

Victoria post office employees and outside letter carriers today announced they were joining a nation-wide movement of postal employees asking for a flat \$300-a-year pay increase, instead of cost-of-living bonuses.

"For a long time now, we of the postal services have served, sacrificed and suffered silently," said a statement issued by J. H. Hedley and F. C. Hurry, secretaries respectively of the Postal Employees and Letter Carriers organizations here. "We deny that the cost-of-living bonus takes care of the increased cost of living. It would certainly help if we received the total amount of the bonus as granted, but, unfortunately, such is not the case; as the bonus is taxable, and the tax is high enough to nullify the purpose for which the bonus is intended. Also, the government figures for the rise in the cost of living are far too low. Actually, we receive less than we did pre-war or else the increase is so pitifully small that it might as well not be there."

Flier Presumed Dead

Sgt. Lionel Harry Williams of Ladysmith, V.I., previously reported missing, is presumed dead in the 702nd R.C.A.F. casualty list issued today. His father is D. J. Williams of Ladysmith.

Nazi Fighters Equipped With Rocket Guns

LONDON (AP)—"Rocket planes" which pilots said were used by Germans attempting to break up a Thunderbolt screen protecting U.S. heavy bombers in the Bremen raid were German fighters equipped with rocket guns under each wing.

First reports indicated the planes might have been rocket-propelled, bomb-carrying aircraft, but later intelligence reports showed the planes were using the same type rocket guns they used against the Americans on August 17 during the Regensburg-Schweinfurt raid and on several occasions since.

On the Bremen raid the Germans succeeded in downing only three U.S. fighters.

Druggist Stamp Sales To Exceed \$100,000

VANCOUVER (CP)—Returns of sales in connection with the B.C. druggists' war savings campaign will exceed \$100,000, F. H. Fullerton reported today. Returns already to hand are in excess of \$68,000. The original provincial quota was \$21,000.

WASHINGTON (AP)—Mirroring the increasing gravity of the pulp and paper situation, the U.S. War Production Board today advised newspaper publishers appeals for additional newsprint allocations over quota in the fourth quarter of 1943 would have small chance of success.

LONDON (CP)—Two years ago the Ministry of Food appealed to British farmers to grow more onions. Today, retailers complained onions were so plentiful they couldn't sell them, and the ministry announced that hereafter they would be rationed free.

Michigan Timber Burns

MARQUETTE, Mich. (AP)—Fire swept uncontrolled today through thousands of acres of timberland in Michigan's upper peninsula. Conservation officials described the forest conflagration as the worst in northern Michigan since 1936.

Japs In Indo-China 'Pretty Well Shot'

14th U.S. AIR FORCE HEADQUARTERS IN CHINA (AP)—Maj. Gen. Claire Chennault said today the Japanese fighter force "is pretty well shot" in northern Indo-China. He drew this conclusion from the reluctance of the enemy to offer sharp resistance to raids on Haiphong and Hanol.

Since Oct. 1, 33 Japanese aircraft have been downed for certain, 14 more are listed as probably destroyed and seven damaged against loss of two P-40's.

He came to New York in 1916, where he wrote a book, "The history of a spy." He was arrested and extradited to Britain, where he was jailed and his citizenship revoked.

Deported in 1919, he conferred with the ex-Kaiser in Holland and joined the abortive Kapp government in Germany in 1920.

In 1921 he was accused of fraud in Czechoslovakia and acquitted of treason and forgery charges in Austria, whence he was expelled.

Lincoln then surreptitiously entered the United States and was arrested in 1923 for illegal entry. Later that year he was reported held in connection with the Fascist political murder of Giacomo Matteotti, socialist leader in Italy, and British newspapers

Letters to the Editor
TSK! TSK!
So the C.C.F. is going to control our minds too. Well! Well! Bless your heart, Bruce, you shouldn't be scaring timid folk who haven't a mind if their own, anyway. For a nice old gentleman wot picks up old ladies and their hegg baskets it isn't consistent. By the way, pick up Mrs. Noggins soon; I enjoy her down to earth philosophy, and it's also good for you too. Sorta gets you out of that political fog you drift around in.
Bless my buttons! First off you writing chaps was a-tryin' to scare us about the awful Communists with a bomb in each hand, and now it is control. Do you mean to sit there in your rocking chair a-crankin' back and forth and dictate to your gardener-tylist Chinaman that there is no control at present. Why, bless your white whiskers, we are full of controls, and what is the result? The majority of the population are better off than they ever were in their life before. I betcha you could write a dandy column on what would happen if there was no control. Try it.
In conclusion, I will admit that control would be a terrible lot to some people; why gracious, they'd have to go to work. Tsk! Tsk!

Today's War Analysis

By DE WITT MACKENZIE

Associated Press War Analyst
The warning by United States Senator Albert Chandler, Kentucky Democrat—just back from the five-Senator inspection trip to the war theatres—that the Japanese may move their seat of Empire to the Asiatic mainland will strike many observers as a rather startling conclusion.

This column long ago called attention to the possibility that surrender by Japan proper wouldn't by any means necessarily guarantee the capitulation of the Japanese militarists and their great armies on the continent. My point was that the Nipponese generals in command of the armies of occupation in China, being in control of a vast new empire, might decide to ignore orders from the home government and carry on.

NATIONAL DISGRACE

However, that's different from the idea of transferring the Japanese seat of empire to China. Removal of the Mikado from Tokyo to the continent would represent a veritable cataclysm in the history of Nippon—a loss of face which would almost call for nation hard-kill.

The Senator says he has good reason to believe that some of Japan's heavy industry has been moved to the Asiatic mainland, besides the concentration of industry in Manchukuo. That's a true bill. The Japanese have transferred some vital war industries to Chinese territory where advantage is being taken of natural resources.

Moreover, during a decade of control in Manchukuo the Japs have developed both resources and factories. The 10 per cent of China they have overrun is the country's richest territory, both in natural resources and industrially.

TOKYO SAFE SO FAR

Allied strategy apparently depends heavily on bombing of the Japanese mainland to reduce Nippon to submission. If we had suitable air bases from which we could reach Tokyo, Osaka and other cities, we should be about the job right now. But we haven't the bases, and Tokyo is comparatively safe for the moment.

The impending Allied offensive against the Japanese in Burma is calculated to produce the necessary bases. We want to get equipment and air support to the Chinese so that the Japanese can be forced back towards the coast, giving us the air bases we need. Recognition of this danger accounts for the present heavy Japanese offensive in east China.

But when the day arrives when Japan proper has to surrender, will the Japanese war lords on the continent, with their great armies, obey any call to lay down their arms?

Victoria Newsmen At Western Meeting

VANCOUVER (CP)—Wartime problems of western Canadian news editors were discussed Friday by the western divisional meeting of the Canadian Press.

Before adjournment the meeting adopted a resolution urging a single authority be designated to govern the operation of reporters and photographers gathering news of importance in Pacific Command.

Delegates agreed the next meeting should be held in the spring of 1944 at a place to be decided by divisional directors.

Those attending included Angus Mackay, Port Arthur News-Chronicle; Abbie Coe, Winnipeg Free Press; Fred O'Malley, Winnipeg Tribune; Wm. Noakes and E. Whitehead, Brandon Sun; D. B. Rogers and C. Higgins, both Regina Leader-Post; F. Workman, Moose Jaw Times-Herald; Eric Knowles and W. J. Woodward, Saskatoon Star-Phoenix; E. M. Davis, Prince Albert Herald; W. A. Macdonald and Fraser Gerrie, Edmonton Journal; Reg. Hammond, Edmonton Bulletin; Allen Bill, Calgary Herald; R. M. Pearson, Calgary Albertan; Harold Long, Lethbridge Herald; F. F. Payne, Nelson News; Archie Wills and W. S. Henderson, Victoria Times; Harold Husband and R. A. Gurney, Victoria Colonist; M. E. Nichols, W. L. MacTavish, Aubrey Roberts, Vancouver Province; Donald Cromie, Vancouver Sun; W. Bell, Vancouver News-Herald; Frank Gorrie, the Associated Press, Seattle; and Lou Gordon, press censor, Vancouver.

Representing the Canadian Press were J. A. McNeil, general manager, and Gillis Purcell, assistant general manager; E. S. Johnson, superintendent for the west; Winnipeg; and E. J. Turner, Pacific superintendent, Vancouver.

Chicle for America's chewing gum is obtained from Mexico and Guatemala.

THE TOUGHEST JOB IS AHEAD OF US

THE PAPERS are full of good news... the future is bright with promise. But don't forget for a minute that the toughest job is ahead of us... the job of smashing the enemy on their own home ground.

Sooner or later Victory will come. It's up to you... and to every other Canadian... to make it sooner. Think of the Canadian lives that can be saved... the wounds that can be prevented... the thousands of Canadian homes that can be made happier... by going all out now to shorten the war and bring the boys back to peace and security. That's the big and inspiring job we at home have to tackle.

On October 18th Canada's Fifth Victory Loan will be offered. You will be able to tackle this great job. You will have it in your power to help speed up Victory with your savings and income just as surely as our Canadian boys are speeding it up with their bayonets.

Canada knows you won't hesitate. Canada knows you won't hold back. For this Fifth Victory Loan is the most important yet... the biggest in amount, in effort, and in aim and purpose. Make your plans now to buy Victory Bonds. Cut every corner in your Budget. Buy Bonds with your savings. Buy them on the installment plan.

We Should Give Thanks

IN NORMAL TIMES THE OBSERVANCE of Thanksgiving is the occasion of a welcome respite from the daily grind and an opportunity for friendly reunion round the festive board. After more than four years of war our spirits are not so buoyant as they were before the new despotism began to cast its shadow over the earth's surface. The holiday mood is tempered by a too intimate knowledge of the "Goths" which a great part of the world is experiencing. Press and radio tell us every hour of the day and night that new victims of totalitarian tyranny close their eyes in death—some by torture and famine, others because they dare to defy the dictates of those who would crush the human spirit; still more say farewell to life on the field of battle, in the air, and on the seas. All these gallant souls have stood and are standing before the people of this fair land and the unspeakable horrors of a modern dictator's "new order."

Despite the holocaust, then, there are other impressive reasons why Canadians should give grateful thanks at this stage of the most brutal of all wars: No aerial monsters have dropped their ghastly missiles on our villages, our towns, or our cities; our homes have been spared what is euphemistically termed the physical impact of the conflict. No convulsions of nature have disturbed the even tenor of our lawful occasions. No Canadian has known real hunger in these recent years; millions in Europe and Asia feel its pangs as an all-too-frequent variant of the threat of destruction by shot or shell. Our family life is intact and inviolate; our public life still enjoys the freedom which is its right—again because of untold sufferings endured by millions remote from this peaceful scene. Surely there is much in this for which to give thanks, much to impel us to submit to a stern process of self-examination.

Only those Canadian families who have received the dreaded official announcement from Ottawa understand the full impact of this war. Happily these are comparatively few so far; the rest of us have had ample opportunity to satisfy material desires hitherto unasked. Never in the history of the Dominion have so many had so much to do with virtually as they pleased; such controls of spending as have been imposed should be considered blessings not even in disguise. Yet we grumble if we are sternly rebuked for attempting practices which must threaten our own individual interests if we insist on succumbing to them. Thousands of Canadians at this most crucial stage of the Dominion's economy would tell the government to let down the bars which pen back the flood of surplus purchasing power—never pausing to think that such a procedure would result in creating a condition in this country similar to that which helped to produce the man responsible for the present universal slaughter. Verily should we all give thanks and resolve to become better Canadians.

Conserve Electricity

OUR DRY SUMMER AND AN ALMOST rainless autumn so far have resulted in depletion of the natural reservoirs of the B.C. Electric Railway Company's main plant at Jordan River. The situation is reported to be so serious that unless we have heavy and continued rains in this area within the next few weeks the supply of water for generating power will be exhausted. At the same time, due to expansion of war industries and increase of population, there has been an enormous increase in the consumption of electricity hereabouts.

The company showed foresight two and a half years ago in ordering a large additional steam-turbo-generating unit in order to increase the output from the Brentwood Bay power station. If this installation had been in service a year ago, as planned, there would have been no critical supply problem now. However, because of the difficulties in getting equipment and in transportation, the new unit will not be completed until the end of this year.

All these circumstances have combined to threaten Victoria and the lower island with an electric power shortage during the next three months. Mr. A. T. Goward, vice-president of the company, is appealing to consumers to curtail their use of electric energy in every way they can during the few weeks of emergency. He asks that we in homes, offices, stores, theatres and the less essential industries burn fewer lights and use less electricity otherwise, so that the necessary power may be available for essential war industries. It is a reasonable request, and we need it should involve no real inconvenience to anyone. Not to heed it, on the other hand, might force a general curtailment under which individuals who depend on electricity for special services might be really inconvenienced.

War Realities

FACTS ON THE WAR SITUATION today as given by high officials of the War Department at Washington to a conference of 200 leaders of industry, labor and the press should have a sobering yet salutary effect on the growing number of people, here and elsewhere, who seem inclined to say "the war news is good from all fronts, so we can now take it easier here at home."

The grim truth that our enemies are far from beaten, that the armies and air forces of both Germany and Japan are larger than at the start of the war, and that there is no real prospect of an early collapse by either of them, was unfolded in the survey made by the military experts and Under-Secretary of War Patterson. They pointed out the surrender of Italy had weakened Germany only to a minor degree, while our recent victories in Europe and the Pacific had not vitally impaired enemy strength.

According to Major-General Strong, chief of army intelligence, all the information available indicated that the Luftwaffe, despite its losses, is larger today than it was in 1939, while the Reichswehr has replaced its huge casualties in Russia and now has 300 well-trained divisions with the colors, approximately 4,500,000 men, not counting satellite troops. On the German home front, the civilian food ration is higher in caloric content than in 1939, so that the mass malnutrition which weakened German resistance in the last war may be ruled out at this time. General Strong admitted that Japan is growing stronger and cannot easily be beaten, even if Germany should drop out of the war. Nippon has 2,000,000 men of military age not yet called up because they have not been needed; and she has some 2,000,000 more potential soldiers in the 17- to 20 age group not yet subject to draft. Japanese air strength, he said, is on the upgrade. Losses have been replaced and the air force is improving both in quality and numbers. Japanese civilian morale is unshaken and capacity for sacrifice seems almost limitless.

The Allied air war against the Reich has curtailed industrial and war production, "de-housed" 1,800,000 persons, lowered morale and compelled a shift from bomber to fighter planes, according to the report made by Lieut-General McNarney, deputy chief of staff. This is interpreted as convincing evidence that the German high command has abandoned hope of winning a complete victory and is now aiming at a stalemate through prolonged defence. Nevertheless, the German war machine is still so formidable that the toughest and bloodiest stages of the war lie ahead, and this will entail losses visualized by General Strong as so heavy that "they will be felt in every town and every village of our country."

All the speakers, which included General George C. Marshall, underlined the fact that "victory could be attained only by throwing our last ounce of energy into the struggle, with no relaxation of effort at any moment. The main advantage we have is our ability to produce the weapons of war. If, through our unwillingness to face the facts, we give up this advantage, we may find our opportunity for victory has escaped us permanently."

Neutrals On The Move?

FOUR DEVELOPMENTS IN THE RELATIONS between neutral nations and the two remaining senior Axis powers are reported today—unofficially, but with obviously some foundation. Here they are in brief:

1. Adolf Hitler's Voelkischer Beobachter has alluded to the Swedish writers as "those swine in tuxedos."

2. Germany's ambassador at Ankara, Franz von Papen, delivered a stern note to the government complaining bitterly of British planes flying over Turkish territory to the Dodecanese islands—with no apparent protest from the Turkish authorities.

3. Portugal's Prime Minister and his colleagues are considering the advisability of an immediate declaration of war against Japan.

4. The Ramirez government of Argentina is said to be taking stock of its pro-Axis attitude—speculating on how best to make its contribution to Latin-American solidarity against the common enemy.

While Sweden some time ago defied Berlin when she stopped the transit of German goods and Nazi soldiery across her territory to and from Norway, Turkey has meticulously avoided the overt diplomatic incident. But the men of Ankara may be on the point of a change; they are probably mindful of what Marshal Stalin may propose when he meets Mr. Churchill and Mr. Roosevelt—perhaps before then: Turkey holds high cards; she can keep them up her sleeve or play them for the Allied cause.

Portugal already has mobilized her forces; she is smarting under the Japanese occupancy of Timor and Macao; a declaration of war against Nippon might lead to a similar move against Hitler's Reich. The latter would mean great assistance to the United Nations in the north Atlantic. Argentina, of course, is feeling the impact of her "splendid isolation."

The developments to which we have referred may presage new turns in the conflict against Nazi Germany; they seem to be worth keeping in mind in view of Russia's accelerated offensive and the gathering weight of Allied pressure in the whole of the Mediterranean theatre—plus new and paralyzing aerial blows from the west.

Infantry training is not complete. Boys over here aren't trained to walk day and night for a week without eating.

NATURE'S FAULT

THE BLAME, as the little boy from next door explained to me, should properly be placed upon the shoulders of Mother Nature. If she cannot manage her affairs better, said he, trouble is bound to arise. And plenty has arisen.

As I understand the matter from the fragmentary evidence available, the basic difficulty is that Mother Nature, with a singular ignorance of practical facts, divides bantam chicks equally between the two sexes. If you set a bantam hen on a dozen eggs, the chances are you will get six young hens and six young roosters. Mother Nature evidently devised this system long ago, in the innocence of her youth, before the domestic habits of bantams had been fixed by practice and custom.

These habits, I regret to say, are not moral according to our current conventions. They violate the Criminal Code of Canada in the sections relating to bigamy. The bantam rooster, it must be admitted, is highly polygamous. He invariably has half a dozen wives, whom he protects faithfully and regards with equal affection. That, said the little boy from next door, is because he has such a big heart. There is room in it for a good many women at the same time. He is far more generous than the human creature.

But the laws of mathematics conflict here with the laws of nature. For obviously there will always be a surplus of bantam roosters in the world. It cannot be otherwise. If each rooster insists on having six wives, and if the sexes are equally divided, even a mathematician as unskilled as I am can see that, at any given time, there will be five surplus roosters for every hatching of 12 eggs. There will be five unwilling bachelors to every married rooster.

AT THREE A.M.

THERE IS THE great problem next door in a nutshell. There are at the moment eight surplus roosters and no wives in prospect. We are concerned, as the owner explained, not merely with the domestic happiness of these lonely bachelors, we are not merely sorry for their solitary state, but we are concerned about something else even more alarming—the bachelors, like all bachelors of the human species, are addicted to crowing.

They crow all day and they crow all night, and at 3 a.m. promptly they engage in a crowing match with all the other bachelors in Saanich, so that a series of crows spreads like an echo from one henhouse to another across the darkened land, and everybody within miles awakes and curses nature and her foolish laws and the little boy from next door.

The little boy next door, who sleeps soundly, was not unduly alarmed in the beginning at this phenomenon, and could not understand why adult people made such a fuss about it. However, it was finally impressed upon him by his parents and the neighbors that somehow the crowing must be controlled. He therefore started out to sell the bantam roosters. He started to unmake nature's laws by giving each rooster a wife and then selling the pair of them (not bothering to mention to the purchaser that, in a short time, there would be numerous offspring, divided equally between the sexes, with a surplus of males who would surely crow at 3 a.m.).

At first the business of selling off the roosters prospered well. A number of city people, who knew nothing of nature and less of bantams, eagerly purchased the pets at the substantial price of 25 cents apiece, and there was a state of swollen wartime and inflationary prosperity next door for several days, during which it was impossible to hire the young entrepreneur to do any work in the garden.

But presently the business began to fail. The purchasers began to hear the crowing at 3 a.m. The young and newly-married roosters crowed all the louder now that they were married and established in domestic life and looked forward confidently to a family of their own.

TRAGEDY IN OAK BAY

THUS THE PURCHASERS in the Oak Bay district soon found themselves well hated by the public. In fact, I discover that long friendships and the amicable relations existing for years between next-door neighbors have been rudely shattered by the bantams. And, of course, as the little boy from next door complains to me, they blame him, as if he made the bantams crow, as if he were responsible for the current surplus of roosters in the world.

He is more distressed by the fact that the market for roosters has disappeared. He cannot even give the birds away, after all his trouble raising them; and besides, there is a considerable investment in grain which they have eaten (and which, incidentally, has been paid by the parent of the little boy next door).

So last night a desperate resolve was taken: It was decided next door to eat the roosters. But it was easier to resolve desperately than to carry out the fearful plan for the roosters seemed to suspect their fate and refused to be caught.

So Beak and his 22-calibre rifle were imported under the cover of darkness; the bantams were sighted in a tree and Beak took aim. But somehow the gun slipped under the recoil and hit Mr. Beak right square on the mouth and smashed his upper plate to atoms, and he went home without any teeth, cursing the bantams, cursing Mother Nature, cursing the dentists and also uttering some rather unkind things about the little boy from next door, who still has his bantams as we still have the crows at 3 a.m. You wouldn't want to buy some roosters at a bargain, would you?

EVENSONG

Calm is the evening-end;
Like a friend
Who bears a long-desired and darling boon,
Across the purpling hill,
Serene and still,
Comes twilight and the silver-sandalled moon.

The fire of zinnia-bloom
Is quenched in gloom—
To his stem the drowsy cricket clings—
Every chattering bough
Is silenced now—
Every nest is full of folded wings.

Good-night to life and day;
Come we away,
By roads of trembling starlight climb the steep,
And softly, softly go
Where poppies blow
Along the carmine-petalled paths of sleep.

—AUDREY ALEXANDRA BROWN

GLOOMY FORECAST

From Manchester Guardian

It is easy to overestimate the effects of defeat on the German mind. For many Germans will be tempted to think not so much of the destruction of the Nazi hopes as of the triumphs that preceded it. The Nazis set out to conquer Europe, and the German of the next generation will remind himself how nearly they succeeded; how little of Europe escaped their armies; on what narrow accidents important events depended; how

skillfully they organized the economic life of most of the continent of Europe to serve their plans. It is true that the war came home to the German people as the last war never did, but the Germans will persuade themselves that with a little more skill and a little better luck they would have won the war in the first two years before their cities and their factories had to suffer from our bombs. Not much, then, can be trusted in the future to the impressions left by defeat and disaster.

WAR—25 YEARS AGO

Oct. 9, 1918—Canadians of the 1st Army were the first troops to enter Cambrai taking Ramillies to the north. Anglo-French forces compelled a general German retreat from the St. Quentin sector and the Americans occupied Argonne Wood. Since Aug. 21 the British captured 110,000 prisoners.

Oct. 10, 1918—The German retreat continued as the British entered Le Cateau and advanced several miles beyond Cambrai, between Lens and Scarpe River progressing towards Douai.

The U.S. Army is using more and more boneless beef, frozen in containers, instead of carcass beef as a field meat ration; the army boneless meat is prepared in three classifications: Steaks and roasts, boiling pieces, and ground meat.

Total food production in the United States this year is expected to exceed last year's record production by about 5 per cent.

Realtors Protest Building Restriction

Real Estate Board of Victoria registered their protest to the controller of construction's ruling restricting the building of homes of more than 900 square feet of floor space, and endorsed the Victoria Chamber of Commerce's official protest at a board luncheon meeting in Spencer's dining-room Friday.

"It looks like an undercover way to stop construction. If it is because there is a shortage of materials, why don't they say so," said R. H. Shanks, president, Maj. H. C. Holmes moved that the board back the Chamber of Commerce's protest.

Municipalities of Oak Bay and Saanich have already voiced their protest and Reeve Alex Lockley declared that Esquimalt would follow suit.

"The municipal government is the only government the general public knows of and yet it is the one in which they take practically no interest," R. R. F. Sewell, secretary of the Union of B.C. Municipalities, told board members in an address on the highlights of the union's annual convention at Alberni. "See that the people take an interest in the affairs of municipal government; 75 to 80 per cent of the people in the province live in municipalities."

Mr. Sewell discussed resolutions brought before the convention mentioning particularly the questions of school taxation, municipal-hospitals, assessment values, old age pensions and taxation exemption. In 1888 the B.C. government requested Nainaimo, Victoria and New Westminster to assist in the matter of education, the speaker said, and added that gradually the burden was shifted around to the municipalities with the government offering grants.

Mr. Shanks was in the chair. R. F. Blandy, municipal clerk of Oak Bay, spoke briefly.

Appeal Court Rises

The Court of Appeal Friday completed its Victoria sittings with judgment reserved on cases heard during the day.

The appeal in Brook et al. v. Schumk was traversed to the Vancouver sitting on the understanding it would be heard there if the order for security of costs was obeyed by Oct. 15.

Saanich School Notes

During "Better Parenthood Week," visitors' day was held at Cedar Hill, Tillicum, Tolmie, Royal Oak, Mount View and Mount Douglas Thursday afternoon and at Mount Newton Friday.

Art work displays by Keating School pupils brought praise from parents who attended the school Friday afternoon. The exhibit arranged by Miss E. Bell included drawings, cut paper work and necklaces made from berries. Posters, clay modeling and a miniature village to illustrate Mexico were outstanding. A table runner and napkins, decorated in crayon with Mexican motifs, were raffled in aid of the Junior Red Cross. The colorful exhibit by Miss Goggin's pupils included autumn leaves in crayon and paint, designs, scenes, health posters and a project on cotton.

During Fire Prevention Week Chief J. Law inspected drills at several schools. N. Duval gave demonstrations of artificial respiration and the use of the inhalator.

A circulating library of social studies, science and health books has been organized for pupils in Grades 4, 5 and 6. These books were selected by teachers of intermediate grades for supplementary reading.

SHAW-WHITE

White heather sent from England mingled with Ophelia roses and swainsons in the shower bouquet carried by Marjorie Ellen White, elder daughter of Mr. and Mrs. A. White, 424 Moss Street, for her wedding this afternoon at 2, in St. John's Church, to LAC. Bernard T. J. Shaw, R.A.F., second son of Mr. and Mrs. William Shaw, Stafford, England. Sqdn. Ldr. R. O. Mossop, R.A.F., assisted Rev. G. Biddle in performing the ceremony. Mr. Ian Gallford played the wedding music, and "O Perfect Love" was sung by the congregation during the ceremony.

Wearing a princess gown of heavy ivory crepe, fashioned with a net yoke, long pointed sleeves and a slight train, the bride was given in marriage by her father. A coronet of lace and orange blossoms held her long veil of French tulle, and her only jewelry was a pearl necklace. Mrs. A. A. McDonald, sister of the bride, and Mrs. C. B. Howland attended the bride wearing similar floor-length frocks of white sheer, and Juliet caps of white embroidered organdie. They carried bouquets of pink and ivory chrysanthemums. LAC. William Downing, R.A.F., supported the groom, and ushers were Cpl. Bert Storkey and LAC. Michael Bunting, both of the R.A.F.

A reception was held at the Y.W.C.A., where the bride's mother, Mrs. White, received the guests, and Mr. Graeme Malcolm proposed the toast.

Going away, the bride wore a rose angora wool frock, beige topcoat, chocolate brown accessories and a corsage bouquet of gardenias. LAC. and Mrs. Shaw will reside in Victoria.

VESTBY-SIMPSON

Rev. Mrs. E. Smiley performed the marriage Thursday evening in Victoria Truth Centre, of Florence Irene, eldest daughter of Mr. and Mrs. Frank Simpson, Marigold, and Roger Holding Vestby, youngest son of Mr. G. Vestby, Kellier, Sask., and the late Mrs. Vestby.

Given away by her father, the bride chose a dressmaker suit of aqua blue crepe with matching hat, and black accessories. Her corsage bouquet was composed of Talisman roses and forget-me-nots. Miss Eva Simpson was her sister's bridesmaid, wearing a blue wool ensemble with a corsage bouquet of pink carnations. Mr. Lennart Vestby supported his brother.

A reception was held at the home of the bride's parents, where Mrs. Simpson was assisted in receiving by Mrs. A. Adamson, aunt of the bride.

After a honeymoon on the mainland, the young couple will reside at View Royal.

Annual Police Ball Planned for Nov. 5

Police officers from Seattle, Vancouver and municipalities adjoining Victoria, will attend the 30th annual Victoria Police Department ball, Nov. 5, Detective H. F. Jarvis, chairman and secretary of the ball committee, announced today.

The formal ball at which officers will attend in uniform will be held in the Empress Hotel ballroom. Dancing will be to Bill Tickle's orchestra.

Those wishing tickets should get in touch with Detective Jarvis at the city police station, officers in charge, are working out details for the decorations.

Round Table Series Starts Wednesday

"Housing in Canada" will be the subject of the first meeting of the Women's Round Table, to be held in the City Hall, Wednesday at 8.

Miss Marjorie Hill, first woman member of the Royal Architectural Institute of Canada, and Mrs. Claire McAllister, adviser to the Tenant Relations Wartime Housing, Toronto, will be the speakers.

Mrs. D. L. McLaurin will preside, and Mrs. Dorothy Spurr will lead the discussion period.

Columbia Unit will meet at the home of Mrs. J. Greenwood, Burnside Road, Wednesday at 2.30.

Engagements

Mr. and Mrs. T. C. Davies of 2575 Graham Street wish to announce the engagement of their only daughter, Dorothy Rosina, to James Spencer Aspinwall, the only son of Mr. and Mrs. J. Aspinwall, 1702 Belmont Avenue. The wedding to take place Friday, Oct. 29, at St. John's Church at 8 p.m.

Rev. Dr. and Mrs. W. C. Western, St. Paul's Rectory, Nanaimo, B.C., announce the engagement of their daughter, Phyllis Madeline Mary, to Cpl. David Charles Yale Simpson, R.C.O.C., youngest son of Mr. and Mrs. G. Y. Simpson, 1310 Dallas Road, Victoria, B.C. The wedding to take place on Saturday, Oct. 30, at 3 o'clock, in St. Paul's Anglican Church, Nanaimo, B.C.

Celebrate Diamond Wedding

Mr. and Mrs. Ben B. Temple, residents of Victoria since 1892, will be "at home" to their friends at 553 Raynor Avenue, Oct. 15, from 3 to 5 in the afternoon and 7 to 10 in the evening, on the occasion of their diamond wedding anniversary. Mr. Temple, youngest son of the late Capt. James T. Temple, born at Ramsey, Isle of Man, May, 1862, was married to Sarah, youngest daughter of the late James Pennington, born at Egremont, Cheshire, November, 1859, in Wallasey Parish Church, in 1883. They came to Canada in 1888 and resided at Hamilton, Ont., until April, 1892, when they took up residence in Victoria.

Mr. Temple, better known as

"Ben," is widely known in yachting circles throughout the Pacific northwest. He joined the Royal Victoria Yacht Club in April, 1896, and was elected to honorary life membership in 1922, holding various offices in international regattas and club races for over 40 years.

Both are members of St. Saviour's Church, Victoria West, Mrs. Temple being a life member of the W.A. and active on the church committee. She is a charter member of Lodge Alexandra, Daughters of England.

Guy Temple of Vancouver and Thomas Temple of Nelson are sons, and grandsons are Alan Collier Temple of Nelson and Lt. James R. Temple, R.C.O.C.

ELECT YOURSELF "CLOTHES-WARDEN"

It has always made sense to keep clothes in good condition. Now it's most important. Clothes have to be conserved.

HOW Clothes-Wardening WORKS

1. Buy wisely. A good quality fabric is the first step to clothes that last.
2. Treat kindly. When you wash your clothes, use a good detergent, and let them dry in the sun.
3. Drycleaning. Send your clothes to a good drycleaner, and let them be treated with such gentle care.

Hint: Our unique Sunbrite method gives extra protection to your clothes.

SAVE ELECTRIC POWER

An Appeal to the People of Victoria and District

THE visible supply of electric power as represented by water behind our storage reservoirs is rapidly decreasing and unless the present demands for power are curtailed immediately, Victoria and district will soon not have sufficient power for its essential activities--its war industries.

Prolonged dry weather--together with exceptionally heavy demands for electric power -- has brought about this emergency. And, since wartime difficulties have delayed the installation of a large, new steam-turbo generating unit at Brentwood, this source of additional power is not, at the moment, available.

It must be apparent to everyone that the maintenance of war activities in this area--the work of shipyards, factories, shops, etc., must carry on . . . Such activities must be the last to feel any shortage of necessary power should it be impossible, owing to lack of rainfall, to produce the amount of electric power required.

I would accordingly appeal to those who use electric power for less essential purposes--in their sense of loyalty to our war effort -- and to the welfare of this city -- to eliminate every possible consumption of electrical energy, including;

Any Show Window Lighting Still Permitted By Dimout Regulations

Decorative Lighting of All Kinds

Store and Office Lighting Except Where Absolutely Necessary

Electric Heaters

Electric Water Heaters

Indiscriminate Use of the Radio And Household Appliances

I would ask residents to adopt a lower standard of lighting in their homes than usual -- by doing without lights wherever and whenever possible.

It is essential in the interests of the war effort and the general welfare of the city that the consumption of electrical energy, for a short time, be materially and immediately curtailed, and I appeal to the public in their own interests to make sacrifices to this end.

Associated Press Members Stripped of Monopoly Rights

WASHINGTON (AP)—John Henry Lewin, special assistant to the Attorney-General, said today it was clear the government had won a "substantial victory" on the main point at issue in the government's anti-trust case against the Associated Press. A special three-judge federal court returned a decision in the case Oct. 6. The statement by Lewin, one of the government attorneys in the case, follows:

"From a reading of the majority opinion in the Associated Press case, it is clear that the government has won a substantial victory on the main point at issue.

"The court held with the government on all except relatively minor issues. The government sought primarily the abrogation of those AP by-laws, and their application by the defendants in practice, which excluded qualified newspapers from access to AP news reports simply because they happened to offer business competition locally to existing AP members. This was the heart of the case.

"Under the decision these by-laws are stricken down as in restraint of trade and these practices are enjoined. The individual AP members are now stripped of their power to impose any conditions whatsoever upon the admission of a competitor. The by-laws, moreover, must contain an affirmative declaration to the effect that the competition offered by the applicant to an existing member shall not be taken into consideration by the AP group in passing upon the application.

"In addition, until this fundamental reform takes place, the exercise of AP's exclusive right to the news gathered by its members, provided by the by-laws, and the exercise of its exclusive right to the news of The Canadian Press, provided by an international cartel, are likewise enjoined.

"It is particularly gratifying that the government's contentions seemed so sound to the court as not to require an extended trial.

"The court rejected the de-

Thomas Graham, Miner Dies Up-island

Funeral service was held in Courtenay Friday for Thomas Graham, 75-year-old prominent figure in B.C.'s coal mining industry for half a century who died at Comox Tuesday. The body will be sent to Vancouver for cremation.

A native of Ayrshire, Scotland, he came to Canada in 1888. He was chief inspector of mines in B.C. from 1911 to 1917; president of the Mine Inspectors' Institute of North America from 1914 to 1919; past president of the B.C. division, Canadian Institute of Mining and Metallurgy, and a prominent member of the Professional Engineers of B.C.

In his early years in the west he was mine manager at Fernie and underground superintendent for the Western Fuel Corporation, Nanaimo. He was widely known in Victoria.

He retired from business in 1929 and unsuccessfully contested the Comox-Alberni seat in the federal election of that year.

Surviving are his wife of Courtenay and four sons, Colville with the Canadian forces in Italy, Morton in Cumberland, Thomas in Courtenay and Pierce in Victoria.

Fluorescent Lighting Put Under Restrictions

Restrictions on fluorescent lighting fixtures are announced by the administrator of electrical equipment and supplies, Wartime Prices and Trade Board. It is now necessary for a purchaser to make a declaration before he may obtain such fixtures or replacements. Design and dimensions of all fixtures must be approved, and a permit is necessary for the installation of fluorescent fixtures in a building, or part of it, where electrical fixtures or lights have been previously installed.

Community Chest Collections Reach Total of \$55,816

Collections of \$3,493 Friday carried Greater Victoria's combined Community Chest-Salvation Army home front campaign total to \$55,816 as canvassers started their work today prior to the long week-end holiday.

Opinion was expressed the drive would exceed that of last year if all workers finished their assignment.

To correct an impression held by certain Victorians, officials stated no canvassers were paid for their work. Certain overhead costs had to be met, but they were held to a minimum. Total expenses, covering the campaign in its entirety and year-round administration, amounted to less than 5 per cent of the total collections, officials said.

To date collections have been turned in as follows: "Special names committee, \$30,958; busi-

ness section, \$4,982; residential section, \$14,904; industrial, \$2,742; services, etc., \$2,228.

Donations of \$25 and over were acknowledged today as follows:

Maximum Onion Price

OTTAWA (CP)—The prices board announces an order establishing maximum prices at which onions may be sold by growers, shippers, wholesalers and retailers.

Green onions with tops attached having a diameter of 1 1/2 inches or less are not affected.

The order sets the maximum price on sales by shippers, including primary producers, to wholesalers at 3 1/2 cents a pound for Canada No. 1 grade in containers of more than 50 pounds, 3 1/2 cents a pound for Canada No. 1 grade in containers of 50 pounds or less, 3 cents a pound for Canada No. 2 or other grades, varieties or qualities in containers of more than 50 pounds, 3 1/2 cents a pound for Canada No. 2 or other grades, varieties or qualities in containers of 50 pounds or less, and 7 cents a pound for Canada No. 1 pickling onions in any size container. For Spanish-type onions, minimum diameter three inches, the prices may be increased by 1 1/2 cents a pound.

Strike of Printers At Winnipeg Ends

WINNIPEG (CP)—Publishers of the Winnipeg Free Press and the Tribune have signed a new agreement with their composing room staffs after negotiations with the International Typographical Union.

The agreement follows a five-day strike of Winnipeg Free Press composing room workers last month when they sought I.T.U. recognition. The Tribune workers, then members of the Winnipeg Newspaper Printers' Association, agreed to join the I.T.U. with negotiations for a new contract.

A.R.P. Activities

At the monthly meeting of the C.P.C. plans were discussed for the concert to be held Oct. 27 in the Sooke Community Hall. The R.A.F. "Smiles" Club, under the management of F. J. B. A. M. Herbert, will present their show. To complete final arrangements, a general committee was chosen comprising: James Forrest, D. J. De Rockie, A. G. Manzer, A. L. Wilson, A. F. Brownsey, Mrs. D. J. De Rockie, Miss Agnes Milne, Mrs. P. W. de P. Taylor, Mrs. A. F. Brownsey, Mrs. W. J. Orchard, Mrs. A. L. Wilson, Mrs. J. Forrest and Mrs. Robert Acreman.

Proceeds will benefit the A.R.P. for Sooke area.

**ALWAYS TIRED
—Yet Sleep
Didn't Help!**

Doesn't it feel swell to wake up in the morning clear-eyed, refreshed, full of pep? Yet so many, especially over 40, get up tired all over, with aching joints, never really feel their best.

The reason is usually a common complaint—a nervous sluggishness with occasional faint, aches, like minor pains, you know that "dead-behind-the-eyes" feeling, get back pep and sparkle right away. The natural action of **BILE BEANS** is a mild yet effective aid thousands rely on. Made from 10 pure vegetable extracts, Bile Beans are so gentle they are called "The Medicine That Copies Nature." These small laxative liver pills tone up entire system by stimulating flow of liver bile, so essential to good digestion and daily regularity.

You, too, can enjoy that "dead-behind-the-eyes" feeling every day. Try Bile Beans tonight—they work while you sleep. Over 7 million boxes used last year, convincing evidence of how greatly they are helping others.

Langford

LANGFORD—Provincial Scout Commissioner Freeman King will address the Wolf Cubs Wednesday at 4.

Trevor Norman spoke at the monthly meeting of the Prince Edward Branch, Canadian Legion, Tuesday. Activities and work of the legion in England where many Canadian soldiers are taking advantage of the educational facilities sponsored by the legion were described. Mr. Norman also spoke of the services rendered by the Y.M.C.A. and Salvation Army in the Old Country. George Speed was inducted as a new member. F. J. Day, president, presided at the meeting.

Thanksgiving Spirit At Normal Function

Normal students prepared today to leave for the mainland and island points to spend Thanksgiving week-end.

Organized sports were begun this week with a definite basketball schedule which will allow each class one night a week for practicing under the direction of Miss B. Hinton. It is expected the newly surfaced floor of the gym will add greatly to the enjoyment of both basketball and badminton players, who will be organized shortly.

Thanksgiving was the keynote of an interesting program presented at the weekly meeting of the Literary Arts Society on Friday afternoon.

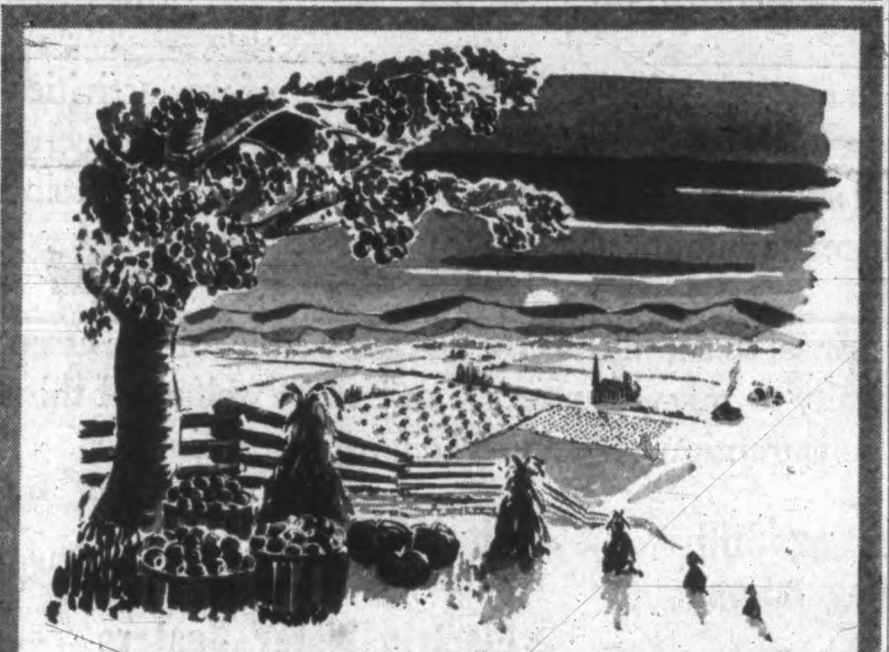

The program included news of the week, reviewed by Misses Marian Braithwaite and Lillian Hutchison; a poem, "The Landing of the Pilgrims," read by Misses Phyllis Haslam and Betty Neave; a Thanksgiving hymn sung by the assembled students, directed by F. C. Wickett and accompanied by Miss Frances Rigby; the story of the first Thanksgiving by Miss Ruth Farquhar, and a talk on the turkey, a traditional part of Thanksgiving dinner, by Miss Marjorie Anstey.

Miss Margaret Elliott presided.

THANKSGIVING

Let us be thankful that our forefathers saw fit to set aside one day, as a Christian Nation, to give thanks to Providence for the bountiful yield of our lands, waters and forests.

THANKFUL that Canada, that we all love so well, has been spared the ravages and horrors of war, as has been visited on other nations under the cruel heel of our enemies.

THANKSGIVING . . . a day to be truly grateful to Canada's sons and daughters for their courage and fortitude on the battlefronts.

Well may we be thankful, but we at home have a duty, too . . . to be vigilant of our Canadian heritage and work with all our energies to bring Victory quicker.

Their Christmas Will
Be What You Make It . . .

OVERSEAS Christmas Parcels

Must Be Mailed Before November 1st

THEIR energies and efforts may now be employed in distant places, over miles of sea and land . . . but their hearts and minds are centred always with you at home, especially at Christmas time. Your thoughtfulness in shopping and mailing now will prove that time and distance are powerless to separate loved ones in thought and sentiment.

Postal Authorities Ask Your Co-operation

"Christmas boxes will have a much longer distance to travel, entailing more handling and reshipment to reach many members of Canada's Fighting Services this year. To enable all the Dominion's men and women overseas to receive their gifts from home in time for Christmas Day, the Postmaster-General, Hon. William F. Mulock, K.C., M.P., calls on the public to mail early for Christmas Overseas . . . not later than Nov. 1.

"The date is 10 days earlier than last year's closing time, but with many of our men serving in the Mediterranean area, etc., the 'deadline' has been advanced to meet the rapidly changing conditions.

"The public is cautioned to lose no time but to Mail Early for Christmas Overseas . . . now, during October . . . the earlier the better, to ensure the timely arrival of the anxiously awaited gift. The more distant our Forces may be from Canada, the earlier their Christmas mail should be sent.

"Citizens are requested not to delay until the last minute to post their parcels, but to Mail Early and so prevent congestion by giving the Post Office opportunity to give their mails prompt handling and to

arrange for adequate cargo space, which is necessarily limited.

"It is also suggested that to help facilitate the provision of shipping for the overseas Christmas mails to the Forces that each sender should voluntarily cut down as far as possible on the weight and size of each parcel, notwithstanding the fact that the maximum weight of a parcel at reduced rate is set at 11 pounds.

"Greater care than ever before is necessary on the part of mailers.

"Address all mails in ink, full, without misleading abbreviations.

"Pack all parcels compactly to withstand handling. A.

"Do not attempt to send glass bottles or highly perishable foods.

"Matches, Safety Matches and Lighter Fluid, or any other inflammable substance, is strictly prohibited by law.

"Refrain from writing to our Forces overseas that gifts are being sent until actually mailed, to avoid disappointment."

As appeared in the Post Office Weekly Bulletin, issued by authority of Hon. William F. Mulock, K.C., M.P., Postmaster-General.

BOOKS

Audrey Alexandra Brown's New Volume, "CHALLENGE TO TIME AND DEATH," by Audrey Alexandra Brown, The Macmillan Company, Toronto.

EVER since her first volume, "A Dryad in Nanaimo," was published in 1931, a new book by Audrey Alexandra Brown of Victoria has been an event in Canadian literary circles. Miss Brown has won international acclaim as one of Canada's distinguished contemporary poets. She is outstanding among our fine artists. This book, which is a collection of 53 of her latest poems, will add to her reputation, for it presents evidence that her art is sustained with the widening of her horizons and the deepening of her powers. She is always the skilled craftsman. She strikes the emotional chords, but never slips into maudlin sentimentalism.

Army Life
"SALUTE ME!"; The Dilemmas of a Second Lieutenant, by Lt. Geo. Bristol, published by Longmans, Green & Co., Toronto.

THIS is another of "See Here, Private Hargrove," type of book. Only, it gives the low-down on what life is like to a sub-leutenant. Lt. Bristol gives a lively picture of a junior officer's activities from the time he gives up his care-free life as a private to enter the Officer Candidate School right down to the moment he exchanges his second lieutenant's bars for those of a first. It is an hilarious knapsack book for the boys off for service.

For the Young 'Uns
"DOWN TOWN," by Maud Hart Lovelace, published by Thomas Y. Crowell.

IT OFTEN TAKES a whimsical children's book full of make-believe and fantasy to remind us that war has not erased all the fundamental pleasures of life. Miss Lovelace's book is a Betsy-Tacy story which seems to be the "Bobby Twins" and "Dick in the Mountains" of the last younger generation. She has her young characters frolic from one hilarious adventure to another. The story never leaves the children's world, in style or vocabulary. It is a book the youngsters will enjoy, for they need not constantly run to their parents to explain "grown-up" words.

The story is about Betsy, Tacy and Tib, "the very best friends,"

All Nations' History Symbolized

By WILLIAM E. GILROY, D.D.
Text: Deuteronomy 11, 13-25

As we have considered the various lessons we have sought to discover their teaching for today, as well as to interpret their meaning in the light of the times when the events and incidents were occurring.

I have insisted always that there is little value in studying the Bible unless its teachings grip our hearts, and give us light and guidance to help us in our conduct and our problems today. It might be said that that is all very well insofar as the New Testament, and the life and teaching of Jesus, and the ultimate and high counsels of the New Testament are concerned; but what is the use of spending so much time over the sins and wanderings, and occasional triumphs, of a people who lived so long ago, in a very small part of the earth's surface, who never so much as suspected that there was a continent far across the sea, where the story of their doings would some day be read, and studied in all its details?

Might it not be better, the cynic might say, to study nations nearer our own time, to derive lessons from their rise and fall? Let me answer that question as concretely and frankly as I can. First, let me say that the history of Israel should not be studied alone, or without reference to our own history or that of other peoples. The one thing that has kept the story of Israel so vital in its interest and so profitable for study throughout the centuries is the fact that it is so typical, and full of symbolism, in relation to other peoples, lands and times.

What people has not known at some time in its history, or in some part of its territory, an experience of bondage, and the misgovernment of evil or corrupt rulers? What nation has not had its Moses, by whatever name he might be called, and its reformers, rallying the people with a call of righteousness, and leading them out into some new era of prosperity and national glory? What nation and people has not ever had before it the Promised Land of a better tomorrow?

The history of all, in a sense, is in this history of Israel. And it is more than a history; it is an exemplification of the moral foundations of good living for the individual and for society.

Here in this particular lesson these things are emphasized. The lesson as it stands is not the whole story. Its teachings and principles are broadly true in the emphasis that is laid upon goodness and prosperity going hand in hand. But the latter history of Israel, and the Bible as a whole reminds us, that the equation

A.R.P. Activities

District 11—A general meeting will be held at 8 Tuesday evening in the Margaret Jenkins School auditorium. The new first aid class will hold its initial session at Margaret Jenkins School at 8 Wednesday.

District 8, James Bay—Tuesday night at Red Cross hall, Michigan Street, the initial meeting for first aid, stretcher-bearers and war gas courses will be held.

News Streamlined, But Policy Same, Says C.P. Manager

In the face of greater responsibilities and difficulties, due to the pressure of war, the Canadian Press "continues to uphold its established policy of giving the public comprehensive, accurate and impartial news," today said John A. McNeil, general manager of the Canadian Press and former managing editor of the Montreal Gazette.

Mr. McNeil arrived in town this morning from Vancouver, accompanied by Edwin S. Johnson, superintendent for western Canada, after attending a general meeting of the Canadian Press, western division, there Friday.

Streamlining of Canadian Press news will naturally follow streamlining of all Canadian newspapers due to the growing shortage of newsprint under war regulations, Mr. McNeil said.

Replacing Ross Munro, who was forced to return to London to recuperate from sickness after covering the Sicilian campaign, William (Bill) Stewart is now in Italy following the troops, Mr. McNeil said.

'Courage Mission' At St. John's Monday

Rev. Michael Coleman, D.D., who has just returned from the United States following completion of a series of missions, will conduct a "Work of Courage" mission in St. John's Church, Mason and Quadra Streets, daily from Oct. 10 to 17, the meetings to be open to the public.

Sunday night at 7.30, on the eve of the mission, Dr. Coleman will address a rally in Royal Victoria Theatre on "God and the London Blitz." The R.C.N. band will give a recital and there will be community singing led by massed choirs.

City Co-operates In Power Saving

City co-operation with the B.C. Electric Railway Co. Ltd. in conservation of power, pending rains required to fill existing reservoirs was vouched today by Ald. W. H. Davies, chairman of the electric lights committee.

The question was under consideration, he said, adding the city itself was studying means of avoiding waste. He urged citizens generally to assist in the move by avoiding unnecessary use of lights.

R.A.F.'s 'Patrician' Marks Anniversary

Linked with Victoria's Centenary, the second anniversary issue of the Patrician, monthly magazine of the R.A.F. at Patricia Bay, pays tribute to the city as well as recording every phase of life on the station in the last two years.

"It remains for us to record the lighter aspects of our life here and, we hope to demonstrate the truth of Mr. Churchill's phrase—'Grim, but Gay' say the editors. A glance through the Patrician proves they have attained their goal. There are special sections devoted to subjects ranging over the R.A.F. Wives Club, Smile Show notes, Victory gardening—Pat Bay style, including several pages devoted to athletics and sports.

Pictures and cartoons provide expression for artistic talent at the station, illustrating mess parties, marriages and sports events. "Men at Work," regular monthly feature, portrays the dental clinic, while "In Town Tonight" shows the activities of airmen on leave with many scenes familiar to Victorians. "The Thing" on Pandora Avenue, so often referred to by Bruce Hutchison, hasn't been forgotten either, with a full page cartoon entitled "The Gremlin Did It!" facing an article on the subject. There is also a photograph of an R.A.F. boy standing in the street gazing up at the thing, under the title "And still he gazed and still the wonder grew!"

"Scrap Book, 1941-43," is a collection of such impressions and events, reading of which recalls happenings of the last two years important in the lives of civilian Victorians as well as the R.A.F. personnel at Patricia Bay. In it covers the life of the airmen from the days when their station was being developed from a site of slimy mud and disordered chaos to the present day.

Four of five incumbents were definitely in the field for re-election to the City Council today with the announcement by Ald. W. H. Davies he would seek return to office.

Ald. Davies has been police commissioner for the last few years, is chairman of the electric lights committee, sits on the finance, legislative and market committee, is a member of the parks board, the business and trades development committee, the health and social welfare group, a city representative on the Victoria and Island Publicity Bureau directorate, and is a member court of revision on the voters' list.

Aldermen Ed. Williams, Fred A. Willis and T. W. C. Hawkins also stated their intention of defending their seats. Ald. B. J. Gadsden is expected to make his announcement to the same effect shortly.

In the contest are Mrs. A. S. Christie, city school trustee, and T. A. Cresswell. Prospects are Mrs. A. C. Ross, who made her first bid for office last year; Mrs. Alice McGregor, who has contested the last 13 elections, and possibly Harry Langley, anti-chlorination committee leader.

Dimout Law Ends Waterfront Blackout

The blackout along the Victoria waterfront will end Sunday midnight when the new dimout regulations which will also permit porch lighting and end blind pulling, come into effect.

Householders will no longer have to blackout their windows facing the sea and motorists, heretofore required to operate their cars in waterfront areas with parking lights, will be able to use passing or downward headlights in an area visible from the sea.

Dimout hours remain from half an hour after sundown to half an hour before sunup from Oct. 1 to April 30. During the remainder of the year the dimout will become effective one hour after sunset and will end one hour before sunrise.

Relaxation of the dimout to permit porch lighting with 25-watt globes requires that a person must be constantly present to instantly extinguish or mask the light.

In Seattle, Tacoma, Portland, and Sacramento all restrictions were lifted from interior lights, permitting a return to normal lighting in store windows and in homes without drawn shades. Billboard advertising will return.

In Los Angeles and San Francisco only lights within six feet of a window require shielding, except lights visible from the sea which must still be shielded.

Variations from any of the B.C. dimout restrictions may be permitted by written permission of the chairman of the advisory council, A.R.P., or his deputy if the relaxation is required to maintain maximum industrial efficiency or reasonable safety.

City Building

Permits for two new homes were issued by the city building inspector's department today, raising the total values for the week to \$17,772.

In all 19 permits were granted. The homes listed today include a \$3,380 four-room single family dwelling for Ed Hume, at 1227 Basil Street, and a \$3,160 four-room dwelling for George White at 2613 Belmont Avenue.

Summons will be served next week on Victorians who have not yet met current road, poll and dog taxes, the collector of those levies said today.

Wise mothers include Milk in Victory Lunches, in School Lunches, and indeed in every lunch and on every Menu. And extra careful mothers add the assurance of protected quality by ordering from

Theft of an inner tube from his bicycle left in the doorway of the Clifton Rooms was reported by S. Smith. James Clark, 319 Chester, reported a gasoline ration book stolen from his car.

Nazis Complete Plan To Take Over Rule Of All France

LONDON (CP)—Tension inside France mounted today as reports from both Allied and Axis sources indicated the Germans had virtually completed plans to take over the government of the entire country.

Arrests were reported from all parts of the country as resistance to the repressive measures of the conquerors increased. In Paris, Robert de Beaulieu, Nazi radio spokesman, asserted the Germans would take over if French authorities were unable to subdue what he called "terrorism."

Radio France, Free French station in Algiers, reported the Germans would seize the country's government "any day now." The Moscow radio, quoting a "lass dispatch from Geneva, said the Germans had appointed Gestapo agents as Laval's bodyguard, and he was regarded as a "Gestapo prisoner."

LAVAL TRIES TO QUIT
Neutral capitals for the past several weeks have received reports that Laval himself, alarmed by the fall of Mussolini and Allied victories in the Mediterranean, was attempting to drop his Quisling role.

Relations between Germany and Sweden were also reported more strained today. An editorial in the official Nazi party newspaper, Voelkischer Beobachter referring to Swedish writers as "those swine in tuxedos" has been brought to the attention of Dr. Paul Schmidt, Nazi press chief, and a Berlin broadcast said, and Schmidt was reported to have said that perhaps, the editorial was "somewhat slangy."

Germany expects the Swedish government to take some necessary steps to prevent further complications impairing the relations between the two countries," the broadcast concluded.

Fifth Loan Seeks \$1,000,000 More From Island Public

Civilians of Vancouver Island will be asked to invest \$1,000,000 more in the Fifth Victory Loan opening Oct. 18 than in the previous campaign, J. W. Spencer, divisional chairman of the National War Finance Committee, said in announcing objectives for the island units.

"If the present rate of acceleration in carrying the war to the enemy is to be maintained and the slowness of war must be provided at a pace comparable to the movement and action of our forces," he said.

Anticipating fulfillment of the quota by Nov. 6, Mr. Spencer said distribution of quotas has been carefully studied, some districts having lower and some higher objectives than in the Fourth Loan. Objectives set are as follows:

	Fifth Loan (Civilians Only)	Fourth Loan (Including Armed Forces)
Victoria	\$4,200,000	\$4,100,000
Esquimalt	500,000	1,075,000
Oak Bay	500,000	1,075,000
Esquimalt	500,000	1,075,000
Duncan	750,000	800,000
Comox-Courtenay	450,000	400,000
Nanaimo	750,000	114,000
Alberni and West	600,000	400,000
Coast	600,000	400,000
Totals	\$9,500,000	\$9,500,000

In the fourth loan, men in the armed forces contributed \$90,000. This time their quota is separated from civilian sources, which have to exceed the joint investments of the last loan by \$100,000 in Victoria alone.

Denis Hagar, divisional organizer, said there is no respite between loans for permanent workers, and unit headquarters have been busy for months in preparation for the drive, which will be the largest financial loan floated in Canada.

Offices of the Victoria unit will be again 737 Fort Street, with J. D. Munro as organizer, and R. W. Hiberson, chairman.

Harold Henderson of the special names committee, reports that Senator G. H. Barnard and his committee are already contacting large industrial and individual investors. George S. Yardley is again organizing Esquimalt, Saanich and the Gulf Islands for the campaign; G. O. Treleaven, Oak Bay; F. Hoey, Duncan; A. Gillespie, Comox-Courtenay; W. P. Bowden, Nanaimo; P. W. Bell, Alberni district and west coast. H. A. Humber is again upper-island organizer. In Saanich, P. J. Baker and H. C. Oldfield are joint unit chairmen; F. G. Dexter will give direction to Oak Bay; Kenneth Duncan to Duncan; Mr. Ricksen to Courtenay; E. Cunliffe to Nanaimo, and L. A. Hanna to Alberni. Associated with Mr. Spencer as divisional vice-chairmen are F. E. Winslow, A. T. Goward and Senator G. H. Barnard.

5 Jap Warships Sunk In Pacific; Quit Kolombangara

By The Associated Press
Japan counted five warships sunk or damaged today in a bitter naval engagement with lighter U.S. surface forces, which frustrated the evacuation of enemy troops from positions no longer tenable in the central Solomon Islands.

The Japanese announced in an imperial headquarters communique that both Kolombangara and Vella Lavella Islands had been evacuated. The Dornier news agency, in a broadcast recorded by O.W.I. called the movement a "successful transfer," which had been carried out "almost without enemy interference."

Allied headquarters, however, announced without qualification: "The enemy was frustrated in an apparent attempt to evacuate (from Vella Lavella) the remnants of his defeated ground forces."

The naval action took place off Vella Lavella Wednesday night. Although outmaneuvered and outgunned, a small group of U.S. destroyers fought it out with the enemy. Within minutes a Japanese light cruiser and one destroyer exploded and sank by gunfire, another destroyer went down from a well-aimed torpedo. Two other enemy destroyers were damaged and limped away. Four more enemy destroyers and an assortment of gunboats and barges changed course and fled without a fight.

American losses were termed "moderate."

A spokesman at headquarters of Admiral William F. Halsey Jr., commander of south Pacific forces, said the enemy warships undoubtedly were sent from Rabaul, Japan's big base on New Britain, 400 miles to the north.

In the Central Pacific the U.S. navy maintained silence on the Wake Island raid, which began at dawn, Oct. 5, west longitude time. Tokyo expanded its original announcement that the raids had been spread over two days (Oct. 6 and 7) by saying that "100-odd planes in a large formation carried out repeated fierce bombing attacks." Tokyo added that the United States was manoeuvring for position to counter-attack against the Japanese home islands.

Dr. Gallagher Speaks To Ministerial Group

News of "hardships" facing all churches in occupied countries under the Hitler regime, was given to the Victoria Ministerial Association, at a luncheon in the Y.M.C.A., Friday, by Rev. Dr. W. J. Gallagher, general secretary of the Christian Social Council of Canada.

The news, he said, came through Sweden and Switzerland and declared that "in spite of all, churches are still functioning; even in Germany the Nazis can not destroy the people's faith."

"In Canada it is up to the ministers and social workers to set up the machinery for looking after the men when they return. They must be prepared to bring them back into their own church and to make it worthwhile," said Dr. Gallagher, who is touring Canada in the interests of co-operative work of Canadian churches in evangelism and Ecumenical movements. He left for Vancouver Friday night.

MUNICIPALITY OF OAK BAY

Lodging, Boarding and Apartment Houses to be Registered

All persons letting rooms to lodgers or boarders, or operating apartment houses (lodging-houses, or boarding-houses) within the municipality are required to register their premises with the clerk of the municipality, in accordance with the provisions of the "Lodging, Boarding and Apartment House Registration By-law." All premises now used for such purposes must be registered before Nov. 15, 1943; non-compliance renders the owner or tenant liable to a fine. Forms of application for registration can be obtained at the Municipal Hall, Oak Bay.

REGISTER NOW

For Voters' List of Municipality of City of Victoria for Current Year 1943-44.

With the exception of qualified "Householders" whose names appeared on last year's Voters' List and who have paid both Road Tax and Poll Tax this year, and with the exception of the current year 1943-44 must file the necessary Declaration with the City Clerk, City Hall, by FIVE o'clock p.m. on MONDAY, the FIRST day of NOVEMBER, 1943.

M. F. HUNTER, City Clerk.
City Hall, Victoria, Oct. 8, 1943.

IF YOU SUFFER DISTRESS FROM MONTHLY FEMALE WEAKNESS

Which Makes You Cranky, Nervous

If you suffer from cramps, backache, headache, "irregularities," periods of the blues — due to functional monthly disturbances —

Start at once — take Lydia E. Pinkham's Vegetable Compound. It not only helps relieve monthly pain but also tired, weak, nervous feelings. This is due to its soothing effect on one of woman's most important organs.

Pinkham's Compound is one of the most effective medicines you can buy made especially for women. Taken regularly — Pinkham's Compound helps build up resistance against such symptoms. Also a fine stomach tonic. Made in Canada.

St. Mary's Afternoon Branch of the W.A. will meet Thursday at 2.30. Speaker will be Mrs. W. G. Wilson.

Dorothy Dix:

Dear Dorothy Dix: I am 31 years old, divorced, good-looking, owner and operator of a beauty shop, but very lonely at times. The town I live in is practically an Adamless Eden and I do not have a single male friend, yet there is nothing I want more in life than to have a nice husband and children.

There is an army camp nearby. Would you advise me to sell out my shop and go to work in a defence job where I will come in contact with boys? Shall I gamble my chance of getting someone to say "yes," after the war, of course, or shall I continue on with my shop, where I make a good living?

SARAH.

Answer: Of all times in the world this is the one to stick to a sure thing, I think, and you had best hang on to your beauty shop and your good living with both hands.

Of course, if you go to work

on a defence project, you will meet many boys, but a woman of 31, and especially one who has had such an unpleasant experience with matrimony that she has had to divorce her husband, should be too wise to men to take on a boy husband, even if she could get one. And don't forget that these defence jobs are only for the duration and that most of the workers will find themselves out of jobs when the war is over. So where does your dream of a nice husband home and children come in there?

Also, many of these lads are here today and gone tomorrow, and when they kiss and say goodbye that is the last the girls they leave behind them will ever see of them.

Believe me, lady, there are worse things than loneliness. It is being a deserted wife, or having a husband to support.

Midnight Show Planned By Plaza

Katharine Cornell, who makes her screen debut in Sol Lesser's star-studded "Stage Door Canteen," coming to the Plaza Theatre midnight Sunday through United Artists' release, plays Juliet to soldier Lon McCallister's Romeo in a scene in the picture. Miss Cornell appears as herself, serving sandwiches and coffee to the service men of the United Nations at the Canteen. In addition to Miss Cornell, top ranking personalities who play themselves in "Stage Door Canteen" include Tallulah Bankhead, Edgar Bergen, Ina Claire, Gracie Fields, Lynn Fontanne, Katharine Hepburn, George Jessel, Yehudi Menuhin, Ethel Merman, Paul Muni, Merle Oberon, Ethel Waters and Ed Wynn.

Spring Byington Gets Distinction

Who is the most-to-be-envied actress in Hollywood? This question immediately brings to mind stars like Betty Grable, Alice Faye and Gene Tierney. Others include Charles Coburn, Marjorie Main, Laird Cregar and many more. The gracious, lovely lady is recognized in the film capital as the "perfect screen mother." She is considered by many more popular than any other screen mother. In "Heaven Can Wait," the new 20th Century-Fox Technicolor comedy, which comes to the Capitol Theatre as a special Sunday midnight show and opens a regular week's run on Monday, the actress is cast as a young lady in the early scenes of the picture. Later she becomes mother to Don Ameche, who, with lovely Gene Tierney shares top honors in the film.

'Keeper of Flame' Dramatic Romance

What would a newspaper reporter do if he discovered that the woman he loved was guilty of murder? That's the problem which confronts Spencer Tracy in "Keeper of the Flame," in which he is co-starred with Katharine Hepburn, and which is coming Monday to the York Theatre. The picture marks the first co-starring appearance of this team since their hilarious "Woman of the Year." The new picture is a powerfully dramatic love story, deeply significant of contemporary America.

Marjorie Lawrence 'One Man Brigade'

They call her the One Man Brigade, and she's earned the title. Marjorie Lawrence, Australian soprano of the Metropolitan Opera Company, who will be heard at the Royal Oct. 27, on the Hilker Attractions Greater Artists Series, has given her time and talent unceasingly during the last year to help raise funds for innumerable relief and more recently to aid the U.S. government in its drive for selling war bonds. The government has awarded her a citation for it. Although Miss Lawrence was stricken with infantile paralysis at the height of her career, almost two years ago, she has not allowed a wheelchair to keep her down. Rather, she has given more time and energy to helping others than ever before. Tickets are now on sale in Fletcher's music store.

Rommel Portrayed In Show at Cadet

For the first time in films Field Marshal Erwin Rommel, the Nazi Afrika Korps leader, is portrayed in Paramount's exciting north African adventure, "Five Graves at Cairo," which is due next Monday at the Cadet Theatre. Erich von Stroheim returned to Hollywood from Broadway especially to appear as Rommel. OAK BAY THEATRE Rudolph Mate, director of photography on Alexander Korda's "That Hamilton Woman!" the stirring film romance which is now at the Oak Bay Theatre, invented a new type of camera spotlight which he used for the first time on the Korda production which co-stars Vivien Leigh and Laurence Olivier. Mate, Academy Award winner for his work on "Love Affair," recently won acclaim for his photography on "Foreign Correspondent."

PLAZA THEATRE Decision to film "White Savage" in technicolor is accountable to Universal's wish to make full utilization of "color" potentiality of its new South Seas settings and to capitalize fully on Maria Montez' extraordinary loveliness as discovered by "Arabian Nights" cameras.

A SCENE FROM "Heaven Can Wait," starring Don Ameche and Gene Tierney, and coming Monday to the Capitol Theatre.

Star Sacrifices Beauty for Art

Ann Ayars has sacrificed her pride and joy, her beautiful long fingernails. But it was all for the sake of her art. The Metro-Goldwyn-Mayer actress portrays a secretary in "The Youngest Profession," coming Monday to the Atlas Theatre. In a scene with Edward Arnold, who appears as her employer, she had to do some typing. A few days of lessons from a studio typist made Ann realize long nails are taboo for efficient secretaries. She went the other way, and Ann traded her fingernails for screen authenticity.

Ralph Redding Champ

KIMBERLEY (CP) — Ralph Redding edged out a 38-hole win over Art Franks for the Kimberley Golf Club championship. Tied at 120 strokes, as well as even in match play in 27 holes, they repeated the tie on the 36th, halved the 37th at par, and Redding took the championship on the 38th by a stroke. Frank Sullivan was first flight

AIRMAN LIKE PIE BEST—"That's the best darn pie," says Sgt. Lionel Tercier, of Edmonton, as he gets a second piece from LAC. Henry Oliver, of Campbellford, Ont., assistant chef at coast R.C.A.F. camp. Head chef, Flt. Sgt. Art Harkin, in white apron on right, says it's a compliment to the services' recipes and cooking staffs that the air boys vote for pie as their favorite food. Harkin was former chef at Hedley Mascot gold mine, Essondale Mental Hospital, and established an international reputation for his culinary work as master chef on a steamship line operating between B.C. and California. He says air force boys eat on an average of 64 pounds of food every 16 days.
